

# RBC Manpower Services

## ASSEMBLY FITTERS SEAHAM, NORTH EAST

### COMPANY OVERVIEW

Redhall is a leading niche engineering support services group operating in the nuclear, oil and gas, chemical food and defence sectors. The Group supports its blue chip client base using an integrated offering of design, manufacture, installation, maintenance and decommissioning. Our policy of investment in long term relationships in market sectors, where support and development of critical assets is a client priority, is key to our future success.

### Our People

The group employs just under 2,000 people across eight businesses in the UK and Northern Ireland. We believe our employees *are* our assets. Our employees are the key drivers of our profitability and growth within our business, and we believe that if they are well motivated, they will deliver the service that our clients expect and deserve. Here at Redhall, the development and learning of our employees has, and continues to be, our priority. We want people to join our companies who want to learn, develop and build their career with us, whilst at the same time help us to achieve our plans for business growth and excellence in those markets that we operate in. Redhall's business *is its people*, it's as simple as that.

### RBC Manpower Services

A division of R Blackett Charlton Limited and part of the successful Redhall Group of companies. We have been providing resources and people solutions worldwide to a well established international client base for over 15 years. We are committed to adding value to all client companies and have established a highly successful formula which remains totally flexible to meet each specific assignment. Our unique selling point is that many of the candidates we are working with have also worked within the Redhall Group, therefore we can at first hand reference their quality of work, time and attendance, productivity etc. For both clients and candidates RBC Manpower Services offers the full range of recruitment services. Please browse our site to find out more about our business and view the current live vacancies.

**We are currently looking for Assembly Fitters to work for a well established company to work on a 3 months contract basis.**

### Job Requirements

- Working in a busy workshop environment building up machinery from scratch on the basis of technical drawings.
- Previous experience in machine assembly is essential for this role.
- The knowledge of pneumatics would be beneficial. The right attitude including self motivation, willingness to learn, being a team member will be a great asset.

You will be expected to work 37 hours basic week on two shifts pattern (6am-2pm and 2pm -10pm) however additional overtime work will be required (min 10-15hrs/week).
